The Terrible Struggle at Homestead More and More Serious Daily.

HOPES OF A SETTLEMENT.

Pinkerton Detectives at Brinton, to Arrive Before Daylight.

EXCITING SCENES OF THE THIRD DAY.

The third day of the great strike at Homestead opened under the most exciting circumstances. There are 2,800 workmen whose situations depend on it, and 25,000 to 30,000 persons whose living is concerned. The majority of the men were on guard all night at the different depots, at the works and at certain points along the river bank. They have a perfect system of martial law, and the man who have no pass can't go through their lines.

The utmost vigilance is being constantly exercised, and the strikers do not propose to be caught napping. A most perfect code of signals, by which the men can be summoned from one point to another in the shortest possible time, has been arranged.

.hat the Sheriff would attempt to bring in a large number of newly-sworn-in deputies, brought out almost the entire population. Scouts were sent out to points in all directions to take the trains, examine into the personnel of all passengers, and be ready to signal the result to the committees on arrival at Homestead or Munhall.

#### The Incentive at Hand.

About noon a special train of three cars, having on board 124 deputies under command of ex-Sheriff Gray, arrived at Munhall and was side-tracked at a point difrom the cars, and, in place of at once entering the vard, formed in line and swaited further orders. They were all dressed in a sort of uniform, consisting of a white straw hat and blue sack coat, and wore a white satin badge with the words "Deputy Sheriff" in black letters. They were immediately surrounded by hundreds of strikers and women, who

ment to advance war would commence in mated officials. dead earnest. At this juncture the tall form Workman Ross, of D. A. 3, K. of L., and scene. at fever heat. Men shricked orders to each other, women alternately cried and laughed and children's screams added still further

to the uprour. At last one of the denuties threw off his coat, tossed his revolver across the track and walked out of the ranks. This action was received with deafening cheers, and another man followed suit, then another, until 25 had left the force. Each desertion was cheered to the echo, and a committee promptly escorted the ex-deputies to the station and shipped them back to Pittsburg on the 1 o'clock train. During the afternoon the men deserted one by one, and by evening there were not more than a dozen deputies in town. One, an old soldier, in speaking

of their reception, said: "I went all through the war: I was in at least a dozen battles, and did my share of the fighting, too; but I candidly confess that, as I stood in front of the body of strikers this noon, I felt my heart come up in my throat. I don't want any more service in Homestead.'

It was claimed by many of the association that a large part of the deputies were work-men who assumed the disguise in order to gain entrance into the works, but this does not receive much credence at headquarters, not receive much credence at headquarters.

Auxious to Get Back. It is said that one of the deputies sold his blue coat and his county revolver for 50 cents at the Homestead depot, in order to

buy a ticket back to Pittsburg. After the departure of the deputies the town enjoyed a period of rest. During the Mehling was drowned on Monday afternoon afternoon and early evening but one un- in the Codorus creek while swimming. Secretary Martin's statement that the trouble was all caused by men not members of the Amalgamated Association offended some of the best workmen. Some of the men have worked hard ever since the trouble commenced, many of them having had less than six hours' sleep since Sunday.

At Their Weakest Point. About 9 o'clock last night a report was started that a boat filled with strikers was coming down the river, and would attempt to make a landing at the water's edge of the works. This caused the wildest excitement for a while. This is the point on which the stricken are the weakest. The fence surrounding the works is built down to the river, and a boat could run up inside, and the strikers would be unable to oppose them; the only way of reaching them would be by skiffs, with which they are not supplied.

The immense dimensions which the strike may assume do not seem to be thoroughly Dispards by Frank G. Carpenter.

appreciated by the general public. This is SULLIVAN YET SAFE most formidable that has taken place for

Every day illustrates the remarkable organization of the Amalgamation. The strikers are, for the most part, under perfect control. Orders from superiors meet, in most cases, with prompt obedience—notably in regard to non-discussion of the mill affairs on the street or in saloons.

It is only when one takes in consideration how great is the tempiation, and how little actual violence has taken place, that he begins to appreciate the perfection of the system which controls the strike.

It Menus Much. The men are in deadly earnest. To them the result means everything. The impression has gained ground that the strike will do much to regulate the workingman's position in the future. There are men in Homestead who firmly believe that success means happiness for life, and defeat the loss of home, family, suffering, etc. If it is within the power of these men to prevent it, no non-union workmen will ever gain ad-

mittance to the mill, Up to midnight the Pinkerton men had not put in an appearance; but it is reported that a carload went down the main line yesterday morning as far as Brinton, where they crossed the river, and were to wait until darkness set in before proceeding to start for Munhall, in hopes to take the strikers unawares and reach the works without trouble.

But, if they attempt an entrance as proposed, there is a great prospect of serious trouble this morning.

Since yesterday's developments at Homestead it has been intimated, from quarters not to be doubted, that there are possibilities of an early conif not indeed, ot The report received early in the morning settlement of this dreadful trouble. It has become evident that many of the parties on both sides of the controversy desire such a happy result; and for this every good citizen will devoutly hope.

The relations between the iron workers' association and the K. of L. as is known, have not been pleasant ever since the Mingo Junction and the Benwood troubles, but notwithstanding this fact, the K. of L. has shown a willingness to aid the rival organization in the Homestead strike. Last night President Weihe received the following telegram from John W. Hayes, General Secretary of the K. of L.:

The following telegram was received last night from Greensburg: To-night 57 men arrived here from the East and are on their way to Homestead. They are in charge of James Norris, of Detroit. They claim to be in the employ of Pinkerton; but one of the men stated that the majority of them are "scabs," who intend to go to work at Homestead. ### A DISPUTED QUESTION.

Some Doubt as to Whether Sullivan Can be Extradited From New York-The District Attorney Says it Can be Done-An Interview With Gov. Hill.

PEPECIAL TELEGRAM TO THE DISPATCE. New York, July 12 .- Mr. Lindsay, an Assistant District Attorney, was asked this morning if the fighter Sullivan could be arrested in this city and extradited to Mississippi, if a requisition for his arrest is received by Governor Hill from Governor Co. yesterday afternoon and inquired for Lowry. In reply Mr. Lindsay said: "Unquestionably he could. The laws of extradition in every State are founded on the United States Statutes, and a person can be extradited for any crime. "It is not necessary that the erime shall be a felony. The statutes embrace every crime, and a man can be ertradited on a charge of drunkenness. There have been many decisions in the courts where men have been extradited for misde-meanors. We had a man extradited from New Jersey about four years ago for con-spiracy, and in another instance had two men extradited for sending challenges."

Mr. Lindsay added that he "did not know Mr. Lindsay added that he "did not know whether any request for the requisition of Sullivan had been received by Governor Hill. The reports in the newspapers were to the effect that Governor Lowry had telegraphed to the Governor of every State, asking that orders should be given for the arrest of Sullivan, and that he be held until the sulfitting parts. requisition papers were received. It is not at all unlikely that the necessary papers have already been received by Governor Hill. If they have been, or the Governor should choose to order the arrest of Sullivan, the order directing his arrest would be sent to Superintendent Murray, and he would order Inspector Byrne's or one of the other in-spectors to arrest Sullivan." When Mrs. Murphy died, to-day, an autopsy was made, and in her stomach the doctors found two pounds of wood.

For 20 years Mrs. Murphy had been addicted to the habit of dipping souff. She used small wooded brushes for snuff-dipping, and would often bite off and swallow small pieces of the brush. These small particles of wood had formed a solid mass in her stomach.

There appears to be considerable indirnation at Johnstown at the slowness with which relief to the sufferers is jurnished. and a citizens' meeting has been called to inquire into the reason. Notaries public have been appointed to swear the sufferers to the amount of their losses. Two more bodies were recovered yesterday.

JOHNSTOWN, July 12.-To-day notices were received from W. Stone, Secretary of the Commonwealth, by Messrs. I. E. Roberts, M. B. Stephens, J. Frank Condon, William Williams and Robert S. Murphy that they had been appointed notaries publie. Each notice was accompanied by a bond for \$3,000, which the recipient was requested to have properly signed. The printed notices stated that the commission authorizing the person to act had been sent to the county seat. The appointee could see it by complying with the provisions laid down by law.

These appointments, it seems, have b made at the suggestion of Judge Cummin, it being his purpose to have all persons re-ceiving relief qualified to their losses. It is a question with some of the ap-pointees whether they will lift their commissions if the regular fee of \$25 is charged. As a foot note in the letter states that the seals for each is being prepared by Governor Beaver, it is presumed that no fee will be charged.

LOSSES MUST BE SWORN TO. Judge Cummin was only in town an hour Judge Cummin was only in town an hour or two to-day and left again for Cresson. His headquarters in one of the new buildings on Market square are being fitted up and will be ready for occupancy by Monday. So far as the people here can under-derstand his plans, he intends to take one district at a time and have each applicant, as he appears, sworn to the amount of his losses, when he will pay over the money. For this purpose the five new notaries were created, and each will be attended by four clerks.

The Chairman of the Finance Committee

The Chairman of the Finance Committee The Chairman of the Finance Committee expressed himself in very strong terms to-day as being opposed to any such methods, and said he thought the Board of Inquiry had secured all the data necessary to provide for equitable distribution. The people are loud in their denunciation of the methods adopted by the State Commission, and will hold a rousing indignation meeting to-morrow afternoon, handbills to that effect having been distributed to-day. The call reads as follows, and is signed by John Quinn, President of the Board of Trade; George Wagoner, Secretary, and Herman Baumer, P. S. Fisher and H. T. Defranco,

### NEW YORK COMMITTEES.

Dates of the Coming Political Gatherin the Empire State. NEW YORK, July 12.-The Republican State Committee will meet at the Fifth Avenue Hotel in this city on August 15 to select a date and place for holding the Republican State Convention. The late date of the meeting of the committee points to a late convention. Party machinery which grinds out delegates to such conventions moves with much slowness; usually it does moves with much slowness; usually it does not complete its work for five or six weeks after the call for the convention has been issued. Judging from the date of the meeting of the State Committee, therefore, the Republican State Convention will not be held before September 18 or September 25. The Democratic State Committee, it is reported, will meet at Saratoga Springs on August 6 to name the place and date upon which the Democratic State Convention August 6 to name the place and date upon which the Democratic State Convention shall meet. Saratoga Springs is now favored as the place for holding the convention, not only on account of its hotel accommodations, but because being near Albany the Democratic leaders can receive their orders from Governor Hill speedily. It is probable that the convention will be held on September 11.

Convention.

ISPECIAL TELEGRAN TO THE DISPATCH. RICHMOND, VA., July 12.-Mahone' sub-committee to arrange for the time and place for the Republican State Convention have decided to hold the convention at Roanoke on the 20th of August, a week later than the Democratic Convention Property of Convention at Polymer State Co than the Democratic Convention at Richmond. Norfolk made a strenuous effort to get the convention. Roanoke is controlled by Philadelphia capital. It has a fine hall, and it is intended that the convention shall

make a great gala week.

Mahone has invited a detechment of the
Republican National Committee to attend
the convention. There is no longer any
doubt about Mahone's Gubernatorial aspidoubt about Mahone's Gubernatorial aspirations. He will certainly head the ticket. The Democratic candidate will be either Bairne, McKinney, O'Ferrall or Venuble.

A Presbyterian preacher named Drew as stirred up a hornet's nest in Le Claire, lows, by asserting that there isn't an honorable woman in the place. The women of the place, backed by their husbands, brothers and other male relatives, demand a public retraction of the insult, and a coat of tar and feathers is talked of for the minister.

(SPECIAL TELEGRAM TO THE DISPATCH.) DAVENPORT, IA., July 12.-Le Claire is a river town, 12 miles north of here, noted for the number of steamboat and raftmen who live and congregate there. It is agi-tated now as it has never been stirred before by a sweeping charge made by the Presbyterian minister from the pulpit last Sunday night, to the effect that an honor-

able woman, between the ages of 16 and 25 years, could not be found in the place. The paster is known as Rev. Monroe Drew, and he is quite a young man. He came from Chicago four months ago, and has been preaching to growing congregations. He was sensational in his ways of putting gospel truths, and many were drawn to his services out of curiosity. Last Suuday he was particularly severe, saying that immorality had captured the town. He stated in all seriousness that he had been told a woman of honor did not live in Le

A BETRACTION DEMANDED. At the end of the service the young preacher was surrounded by his hearers, who made violent protests at such unbecom-ing language. The next day he was waited upon by 30 young ladies and a public re-traction demanded. Mr. Drew agreed to take back his words privately and to apologize to his callers, but they would

New York, July 12.—The Executive
Committee appointed vesterday by the
Council of the Scotch-Irish Congress of
America, met in the Glenham Hotel this
afternoon. There were present Robert Bonner, President; Prof. George McCloskey, of the oldest citizens, to the chair, and the se-lection of a young lady, Miss Belle Horton,

SOME VERY PLAIN WORDS of denunciation were indulged in, and later a committee composed of two men and three women, all married, was appointed to pre-

pare a report.

After deliberation the report was submitted. It expresses indignation at the state-ment made from the pulpit, and asserts confidence in the character of the young ladies of the place. It demands of the trustees of the caurch the immediate dis-charge of Rev. Mr. Drew, and avows public contempt for the outrageous insult to the community. All Presbyterian churches are warned not to have anything to do with

Rev. Mr. Drew.
To-day the excitement at Le Claire is unabated. Lawyers have been consulted, with the view of instituting suits for slander. Mutterings of tar and feathers are often heard, and some of the young ladies declare that they will not let the matter drop until a public retraction is made, coupled with an apology and a promise not to enter the

### HE SAW THE CLOUDBURST.

The Experience of an Amsterdam Livery man Near Johnstown, N. V.

INPECIAL TELEGRAM TO THE DISPATCH. CANAJOHARIE, N. Y., July 12 .- E. W. Johnson, of Amsterdam, a liveryman, was in the great storm Tuesday which did so much damage about Johnstown and Fonda. He confirms the story of a cloudburst and gives his experience as follows: "I left Johnstown in a rig about 2 o'clock by way Johnstown in a rig about 2 o'clock by way of the Lutheran church road. When near the schoolhouse I noticed a large white cloud, followed by an enormous black one, just north of the road and traveling in the same direction. I knew that cloud indicated a shower, and I determined, if possible, to keep ahead of it. Suddenly a puff of wind came up, the clouds rolled by with alarming speed, and passing by turned in the direction of the river with a terrible roaring sound. I immediately headed the horse for direction of the river with a terrible roaring sound. I immediately headed the horse for a barn which was open, and after helping the farmer to lock his side doors, which occupied about five minutes' time, looked out of the window, and what was a fine farm a moment before was then a lake. The roaring sound continued quite a while, and at one time the rain was so heavy that I could not see six feet away. It abated somewhat at 5 o'clock, and I endeavored to continue my journey by the road I was on, but that was impossible, as the bridges were down and the road washed away in some places. I went to Tribes Hill and then to Fort Hunter, coming home on that route. That

Iwa Men Killed and Several Persons Badis

Injured. PERCIAL TELEGRAN TO THE DISPATCH. WESTMINSTER, July 12 .- During the thunder storm this afternoon lightning struck the grain shed on the farm of Charles Harman, in Frederick county, and killed Mr. Harman and Denton Reifsnider. At the time Mr. Harman, his daughter, three little sons, Samuel, Welty and young Reifsnider, were in the shed unloading wheat from a wagon. Mr. Harman, his daughter and Reifanider were on the wagon, the others being overhead storing the sheaves. The storm came up suddenly and was accompanied by thunder and lightning. While hurrying along the work the two men were struck down and the same bolt threw the others on the floor unconscious and set fire to the shed.

Mr. Welty was the first to recover consnider was also recovered, but that of Mr. Harman was burnt to a crisp. One of the boys was severely bruised about the body and also injured by a splinter from the flooring which passed through his lip. The shed and its contents were entirely consumed.
